

Big savings are in the bag!

NEW!

Save **40%** in material costs with the
Magnum Force bagging system.

MagnumForce

Why outsource your bags when you can customize them yourself for less?

The revolutionary Magnum Force in-line printing and bag-making system automatically turns low-cost poly tube stock into custom bags sized and printed to your specs.

It'll even run pre-opened bags on a roll already on your shelves.

Your **ONLY** source for in-line bag-making systems

The Magnum Force...value priced to bag a bundle in material savings!

- Compact design integrates easily with most automatic feed systems
- In-line thermal transfer imprinting at over 300 dpi, speeds up 8 inches/second.
- Electronically customized bag lengths reduce material costs
- Feed rate 25 inches/second
- Available with optional accumulating funnels, custom load shelf, 220/240V, deflator, check weighers, counters, conveyors and more!
- Bag size 14 in. wide x 26 ft. long
